DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **FOR OUTDOOR USE ONLY. NEVER LEAVE ANY BURNING CANDLE UNATTENDED. DO NOT USE WATER TO EXTINGUISH.**

To reduce annoyance of mosquitoes, use one or more candles in still air. Best results within 3 feet. Do not use indoors or in enclosed areas such as garages, porches or tents. Place candles at least 18 inches apart. Container may become hot; handle carefully. Place on heat-resistant surface away from anything flammable and out of reach of children or pets. Do not move candle while burning or before wax hardens. Always extinguish flame before moving. ***Do not BLOW OUT OR use water to extinguish*** — *smother flammable material to extinguish.* Keep wick trimmed to ½ inch or less at all times. Keep candles free of matches or other foreign matter, which may present a fire hazard. Discontinue use when 1 inch of wax remains. To maximize the repellent barrier, use several Cutter® CitroGuard® Candles to create perimeter protection against flying insects. *Remove label before burning.*
